TEMPORARY SECURITY FENCE PANELS

Security fence panels provide immediate perimeter protection, and are easy to install, temporary, portable and easily modified. Great for construction sites, restricted areas, crowd control, equipment security, sporting events, emergency protection, utility repair, building access, etc. Solid welded panels have easily connected security posts. Panels attach with two clamps, and are portable and durable. Easily installed—no digging or drilling. Each end stands securely on 6" x 24" metal plates, so no concrete is required.

UNICOR's fencing program can meet all your security needs. We manufacture a full line of fencing including ornamental, chain link and security panels, and we can provide installation services for temporary or permanent fence applications.

FILTRATION SERVICES

UNICOR provides a one-stop source for your total filtration needs. With many different products, we have the right solution to help you achieve and maintain the clean, quality air in:

- airports
- auditoriums
- maintenance facilities
- hospitals
- museums
- office buildings

Extended Pleated Air Filters

- pleated air filters are widely used as pre-filters for higher efficiency filters or as final filters.
- used as a pre-filter, these medium efficient filters will add substantially to the life of the more expensive high efficiency filters.
- used as a final filter, these filters will be up to 2 ½ times more efficient than conventional filters.
- 100% synthetic pleated design offers greater dust holding capacity and longer life. Generally, the deeper the pleats, the longer the filter will last between filter changes.
- pleated filter pack is enclosed in a heavy-duty, moisture resistant die cut frame that will not crack, warp, or distort under normal operating conditions.
- pleated media is nonwoven, 100% synthetic engineered media, reinforced with galvanized expanded metal.
- UL Classified as to flammability only; Class 2 (R12347)

Standard capacity air filters feature:

- average atmospheric efficiency of 20% - 25% (ASHRAE 52.1 1992)
- 150°F max. temperature
- 100% synthetic media, engineered for consistency.
- priced each. Sold in full cartons.

CARRIERS & VESTS

New Vests, New Prices

The current war in Afghanistan and Iraq has caused a shortage of certain ballistic materials. Due to this shortage UNICOR will discontinue its line of Spectra-Flex/Gold-Flex vests effective September 10, 2004. All orders received on or prior to that date will be filled. Production of Kevlar® Vests will continue as always and at a **new lower price**. UNICOR will also offer a new **K-Flex®/T-Flex™ vest**. Both vests are available in Threat Level II and IIIA. They are also available in Blue or Black Ballistic Nylon Carriers. These superb UNICOR carriers are constructed of 100% breathable nylon for a comfortable fit.

Testing Is Rigorous — Standards Are High

During testing each vest panel is shot six times, wet and dry, from different angles. Testing is performed to standards set by the National Institute of Justice (NIJ). Standard 0101.03 is the recognized standard for the manufacture of ballistic garments. Although it is not mandatory to meet this updated standard, UNICOR chooses to do so. Additionally, UNICOR randomly selects vests for additional testing on a quarterly basis.

Quality Is Built Into Every Vest

Your protective vest can mean the difference between life and death. We take the manufacture of these garments very seriously, and have stringent quality assurance standards from arrival of the fabric through shipping of the vests.

The fabric is shipped and received under strict security conditions. Certificates of fabric conformance accompany all fabric. The fabric is tagged and can be followed throughout production.

All materials are cut using a pattern certified by the UNICOR quality assurance manager and factory manager, and a factory supervisor ensures that each piece of material is cut properly. Throughout the sewing process, quality assurance checks are made and documented.

Each vest passes a final inspection before it leaves the factory, and each step of the packaging process is closely supervised. Only UNICOR vests are manufactured under supervision of staff that may actually wear it — the ultimate test!

Your Choice of High Grade Ballistic Materials

Kevlar® vests are made of Kevlar KM2, a tough synthetic aramid fiber that, for its weight, is five times stronger than steel. An aramid fiber is a high strength, low stretch material. It is flame resistant, will not melt, and has been treated to be water repellent. When woven as fabric it becomes virtually impenetrable, providing unsurpassed protection against gunshot wounds. It can minimize injuries from falls, explosions, automobile accidents and fires, yet is comfortable and easy to wear.

K-Flex®/T-Flex™ is a unidirectional, 0°/90° oriented non-woven fabric with high-performance fiber materials. K-Flex®/T-Flex™ is fifth generation body armor material which produces panels 25%-40% lighter than the lightest aramid panels currently in the marketplace. Its light weight also allows for excellent flexibility. Each layer weighs no more than 0.04 lbs. per square foot. K-Flex®/T-Flex™ incorporates Kevlar® fibers which are hermetically sealed as the material is produced. Materials are unaffected by perspiration or other wetness. Also K-Flex®/T-Flex™ is not susceptible to performance degradation from heat unlike polyethylene based ballistic materials.

Body Armor Measurements

Name _____

Follow Steps One, Two and Three and record information in blocks at right

1. Measure the chest diameter and record in Block #1.
2. Measure the waist diameter 1" above the belt and record in Block #2.
3. Measure from the front top of belt over the shoulder to the back top of belt and record in Block #3.

A copy of this sizing chart must accompany each individual Body Armor Vest or Carrier order to insure proper fit.

FLEET MANAGEMENT/VEHICULAR COMPONENTS

With facilities strategically placed throughout the country, the UNICOR Fleet Management/Vehicular Components Business Group offers innovative, cost-effective options to get the most from your equipment—at a fraction of the replacement cost. Since we began offering remanufacturing services to the federal government, we've grown into a highly technical operation with a tradition of delivering quality products at significant savings. We can customize our services to meet your needs. Ask us about your specific requirements at www.unicor.gov/services/repair.htm

REMANUFACTURED VEHICLE COMPONENTS

- UNICOR remanufactures diesel engines for weapons and support systems for the U.S. Armed Forces and refurbishes equipment such as forklifts and portable generators, as well as a wide variety of automotive components.

Call the Fleet Management/Vehicular Components Marketing Representative at (202) 514-2595.

NEW VEHICLE SERVICES

- UNICOR offers custom vehicle retrofitting, up-fitting of new vehicles and manufacturing of custom components. Current production lines include complete law enforcement packages for Border Patrol sedans, pickup trucks and sport utility vehicles. Custom components include grill guards, cargo barriers, computer mounts, window security screens, rear security doors and rear deck lights, to name a few.

FLEET MANAGEMENT SERVICES

- Through a commercial partnership with Maximus, UNICOR is able to offer customers the latest technology, to maintain fleet operations. Our Internet-based reporting system features procurement tracking, asset management, bar coding, workflow and personnel management, plus a fully integrated fuel management system. We custom-configure all packages to meet your specific operational needs.

RECYCLING

UNICOR can provide you with competitively priced electronic recycling that meets all federal, state, and local codes. If an item cannot be reused, we break it down into parts that will be recycled. Our goal is to make sure every part is recycled or resold. Since we accept various electronic items for recycling, we are also able to offer a wide variety of items for sale after we break down the electronic equipment.

Put your old, broken or surplus computer or electronic equipment to good use—let UNICOR recycle it.

We accept donations from public organizations, private companies and government agencies. Please contact UNICOR at (202) 305-3768 or (202) 305-3884. Visit our website at www.unicor.gov to find out more about how to take advantage of this opportunity.

Note: Item availability changes due to variety of items collected.

Call the Recycling Marketing Representative at (202) 305-3768.
